Profile

I am an enthusiastic and results-driven Full-Stack Developer with experience in creating and developing web applications. I have good skills in React, HTML, CSS, JavaScript, PHP, MySQL, and Spring Boot, along with a strong knowledge of Java. I also have a basic understanding of the MERN stack. I enjoy building user-friendly interfaces, connecting APIs, and developing complete solutions that improve user experience and system performance.

Skills

Front-End: React, HTML, CSS, JavaScript

Back-End: PHP, Spring Boot, Micro Services, MySQL

Programming Language: Java

Languages Known: English, Tamil

Education

B.E - Computer Science and Engineering 2022 – 2026

PSNA College of Engineering and Technology, Dindigul

CGPA: 8.46

12th Grade 2021 – 2022

St. Joseph's Girls' HSS, Dindigul

Percentage: 89.83%

10th Grade 2019 – 2020

St. Joseph's Girls' HSS, Dindigul

Percentage: 90.4%

Internship

Full-Stack Development Intern – Phoenix Softech Jun 22, 2024 – Jul 22, 2024

Developed a web-based Employee Management System using HTML, CSS, and JavaScript. The system allows adding, viewing, and managing employee details.

Full-Stack Development Intern – Hitasoft Technology Solutions Jun 16, 2025 – Jul 16, 2025

Gained practical experience in web development using HTML, CSS, JavaScript and MongoDB. Learned how to connect front-end and back-end components, handle database operations, and store data securely using MongoDB. Developed a good understanding of form handling, validations, and CRUD functionality during training.

Projects

Student Feedback System

Full-Stack Development

Developed a real-time web-based feedback system for collecting and analyzing course outcome-based responses from students.

Features: Secure login, course outcome mapping, feedback dashboard with visualization, and admin management.

Tech

Stack: HTML, CSS, JavaScript, PHP, MySQL

Course Registration System

Full-Stack Development

Created a web application where users can register for courses, see available courses, and view their enrolled courses. Used Spring Boot and MySQL for backend and data handling.

Tech Stack: React, HTML, CSS, JavaScript, Spring Boot, MySQL

Employee Management System

Full-Stack Development

Created a web application allows adding, viewing, and managing employee details. Used Spring Boot and MySQL for backend and data handling.

Tech Stack: React, HTML, CSS, JavaScript, Spring Boot, MySQL

Certifications

- **Java problem Solving** – HackerRank
- **MongoDB Certification** – MongoDB University
- **Database Programming with SQL** – Oracle
- **Web Development Internship** – Octanet

Leadership & Achievements

Cyber Security Club Member – 2024

Contributed to workshops and sessions on ethical hacking and secure coding.

Ideathon Hackathon 2024 Finalist

Presented innovative solutions in a national-level tech competition.

Full-Stack Feedback System Completion

Successfully completed a full-stack real-world academic project.

Participation

- Participated in **Idea Fest 2024** – Presented creative tech solutions.
- shortlist in **Ideathon 2024** – Team-based innovation challenge.
- Attended **Cyber Security Workshop** – Practical learning on ethical hacking and security practices.
